# Workshop Overview

## Creative media Workshop

The workshops take place in Yard 1 Music studios a professional music studio based in Bideford. During this workshop you will develop and story board an idea,(an action film trailer based in the mountains?) produce a piece of music to go with it, make video and finally edit it all together! The media could be for a TV advert, a film trailer, a music video or a newsreel. You will use a number of props some of which as an extra challenge will be quite comical but will have to be included in your piece of media. Once completed your creation will be 'premiered' on the big screen here at Yard 1! You will of course be able to take your work away to show your friends and family and maybe to develop it further in your own time.

You will also be able to have a go at DJing, using the latest CD MP3 turntables. You can choose what music you want to mix, you are more than welcome to bring your own music in.

*No experience in music or media is needed for this workshop.*

## Song writing Workshops

This workshop teaches you how to structure your own song, from the development of the music to the writing of the lyrics. The session will be taken by a well known singer songwriter.

## Music Production:

Make an original piece of music at Yard 1 music studios. You will learn how to create music using the various tools a music studio offers and be able to take a copy away with you on a CD.

## DJing Workshop:

Learn how to beat, scratch and mix music using Technic 1210s and Numark CD decks, bring your own music on CD and mix it up!

## Film Workshops:

Make a TV advert, a film trailer or a newsreel. You will be using props, green screen technology and industry standard computer software.
